Professional Summary

Frontend Developer with 3+ years of experience building responsive, production-ready web applications using React, Next.js, and modern JavaScript. Experienced in delivering real-world systems for international clients, collaborating with cross-functional teams, and using AI-assisted tools to rapidly prototype and ship scalable, user-focused interfaces.

Work Experience

Frontend Developer – Interactive Media   Nov 2022 – Present

- Built and maintained responsive, production-grade web applications using React and Next.js, serving international clients across multiple industries.
- Delivered 10+ client projects for international clients including Colgate Palmolive (PK), Smart Dental Compliance (UK), and SharkSpeed (SE).
- Translated Figma designs into reusable, pixel-perfect React components with cross-browser compatibility.
- Integrated frontend interfaces with PHP-based REST APIs for dynamic data handling.
- Used GitHub for version control and collaborative development across multiple projects.
- Deployed and maintained production applications using Vercel/Netlify.
- Optimized frontend performance and mobile responsiveness, improving user experience across devices.
- Used AI-assisted development tools (Antigravity, Claude, Lovable) to rapidly prototype features and accelerate frontend delivery.

Projects

Itnnovator – Software Agency Website
Developing a modern software agency portfolio website using **Next.js**, focusing on responsive UI and performance.
Live: itnnovator.com

SAP – Stock Agent Platform (Private System)
Built a stock agent platform using **Next.js** and **Supabase** with secure authentication, role-based access, and interactive dashboards.
Integrated live market data by consuming **PSX APIs** to display real-time stock information.
Demo available upon request.

ED School Management System
Built a school management system using **Next.js** with a custom admin panel, dynamic forms, and CRUD features.
Live: edschool.pk

Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js, Context API
UI/UX: Responsive Design, Cross-Browser Compatibility, Tailwind CSS, Bootstrap
Tools: GitHub, REST APIs, Figma, Jest (basic)
AI-Assisted Development: Antigravity, Claude, Lovable, AI Prompting, Rapid Prototyping
Automation & AI: n8n, Workflow Automation, AI Chatbots, API Integrations
Backend (Basic): Node.js, Express.js, MongoDB, MySQL, PHP, Python
Cloud & DevOps (Basic): GCP, Firebase, Supabase, Vercel, Netlify

Education

BS Software Engineering – Virtual University of Pakistan   2022 – Present

Certifications

Web & App Development (MERN) – Saylani Mass IT Training Program
Frontend Web Development – ConsulNet Corporation
Microsoft Office 365 – Aptech Pakistan
